Representatives through an observer at the meetings of the International Committee of Bankers to be created by the reparations commission is understood to be under consideration by the American government.
Heavy rains over the water sheds of the Monongahela, Youghiogheny and Kanawha rivers brought flood warnings from the United States weather bureau at Pittsburgh.

RESOLUTION BY CONVENTION FAVORABLE TO THE CHINESE

Provides For An International Commission of Jurists to Report Whether Court Practices in China Warrant the Abandonment of Foreign Courts—Chinese Delegates Are Pressing Their Demand For Withdrawal of All Foreign Troops From Chinese Soil—Also For Abandonment of Foreign Telegraph, Radio and Police Wire Systems.

Washington, Nov. 29.—(By The A. P.)—China further concessions today in the conference of the Pacific and the Far East. The resolutions adopted by the conference are favorable to the Chinese.

In conformity with the resolutions declaring for the territorial and administrative integrity of China, the Pacific and Far Eastern committees adopted resolutions looking to abandonment of foreign troops in China. The resolutions, drafted by the sub-committee headed by Senator Lodge, provide for an international commission of jurists to report whether court practices warrant abandonment of the foreign courts created under treaties granting extra territorial rights in China.

Immediately these resolutions were adopted the Chinese delegates presented a list of their "ten points"—that declaring for withdrawal of all foreign troops from Chinese soil, and also for abandonment of foreign telegraph, radio and police wire systems. Dr. Sze, Chinese minister here, and a delegate of the Chinese government, declared that the Chinese government would not accept the "3-5-3" formula as "liberal" as it applies to the Japanese navy. To what extent the Japanese insistence might be carried was undecided tonight, but Prince Tokugawa, of the Japanese delegation, softened the expressions of Vice Admiral Kato by pointing out that in asking for a "10-10-7" ratio the admiral had been speaking merely his own personal convictions.

Because of uncertainty over the Japanese position a meeting of the international committee of naval experts was adjourned without action today. Another meeting was called for tomorrow. Meanwhile there were suggestions that a plenary session of the conference might be held early next week to receive the sub-committee report, but no formal call was issued.

In any event, it is expected that the issue will be decided in the individual conference now proceeding between the delegates of the United States, Great Britain and Japan. In American quarters it was optimistic that the agreement would be reached within a few days but no one would make a definite prediction.

On the side of actual progress the day's development was confined to the Far Eastern negotiations, the representatives of the nine participating nations agreeing to a declaration for abolition of extra territorial rights in China. The acceptance of the principle through a proposal of the American "four big powers" was regarded generally as a long step toward the liberation of China from foreign domination, although the exact details of withdrawal is to be determined by each of the nations for itself after an international commission has investigated the facilities of the Chinese judicial.

SEVEN WORKMEN KILLED BY COLLAPSE OF THEATRE WALL
NEW YORK, Nov. 29.—(By The A. P.)—Collapse today of the steel sided roof and one brick wall of a theatre under construction in the Bronx, killed at least seven workmen and injured more than a score.

Firemen and police, working among the ruins tonight with axes, crowbars and other tools, were unable to remove the bodies of the seven men killed. The bodies of the seven workmen were found in a pile of rubble. The bodies of the seven workmen were found in a pile of rubble.

Inside the building when the crash came, the workmen were putting up the scaffolding for the roof. Working on scaffolding swung from the roof girders, they were braced against the side walls of the building. The bodies of the seven workmen were found in a pile of rubble.

The north wall of the building, falling away from the theatre crashed down over a steel beam, crushing two men and a woman were at work. All three were injured and had to be extricated by firemen, who cut away the beams which pinned them. The bodies of the seven workmen were found in a pile of rubble.

Police, guarding approaches to the building, were all but rushed from their feet by scores of frantic wives and relatives of the victims. The bodies of the seven workmen were found in a pile of rubble.

Identification, in most cases, was made by the bodies of the seven workmen. The bodies of the seven workmen were found in a pile of rubble.
